NEXT MEETING:

February 10th, 2010
12:00 PM-1:00 PM

PNA Construction Technologies

PNA Construction Technologies specialize in the manufacture and supply of innovative products for the concrete flooring industry. Joint failure and random cracking are the two most frequent sources of complaint from owners concerning their concrete floors. A properly designed concrete slab that will perform well under traffic must include products that provide proper load transfer and joint protection. Our products and systems are designed to provide for these vital functions. Come to the presentation to learn about some of our products including the Diamond Dowel System and Hydracure wet curing covers .

Presented by
Scott Heater, PNA Technologies

at
Dekker/Perich/Sabatini, 7601 Jefferson St NE, Suite 100
(2 blocks North of Ellison)

Lunch will be provided by PNA Construction Technologies.
Please RSVP to Vickyw@dpsdesign.org by COB Friday, February 5.

As usual, SEANM monthly membership meetings are free to members and a \$10 donation is requested of non-members. Students are welcome to attend free of charge.
